

Company Profile

Value

- **Customization service and Flexibility are our core values cause we have our own design engineering team and manufacturing factory.**
- **Customized Service**
- **Flexibility**
- **Reliability**
- **Win-win strategy**

Mission

- **Provide professional services to meet and fulfill our partners requirements.**
- **Provide “Embedded technology and Value-added services in vertical domains”.**

Go Green

- **Provide green products that are compliant with WEEE and RoHS legislation.**
- **Our Environmental Management System (EMS) complies with ISO 14001 standards.**

Milestone

- **Founded in 1986, Technica House Inc. is a solution provider which focus on Industrial Computer & Embedded field.**
- **Since our establishment, we have more than 30 years experience in this field. Gain many customers when they need a reliable partner.**

Location

- **4F, NO. 9 , LANE 235 , BAOCIAO RD., SINDIAN DIST., NEW TAIPEI CITY 23145, TAIWAN , R.O.C.**

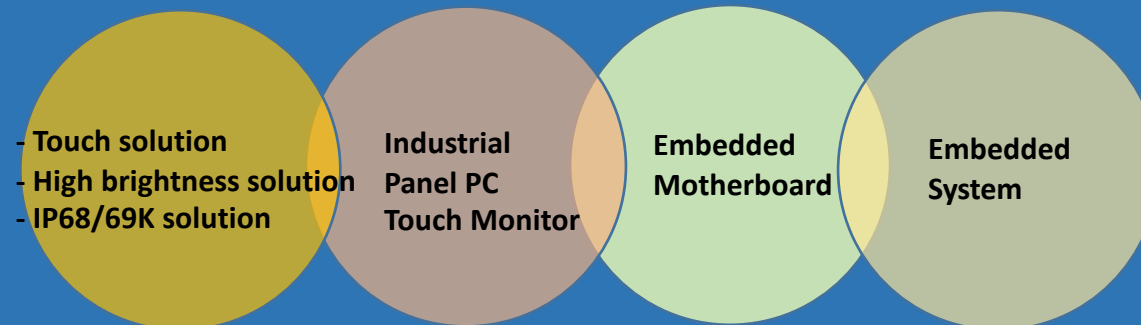

Business Strategy

We provide an One-Stop-Shop for our customers. Our products include:

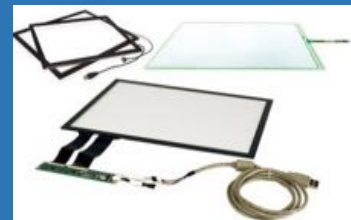

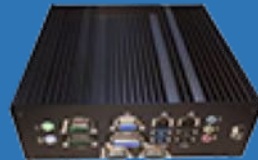

- Industrial embedded motherboard
- Industrial embedded system (Industrial Box PC)
- Full Size Industrial Panel PC/Touch monitor (with bezel or Open Frame)
- Full Size IP68/69K Stainless Steel Panel PC (Touch monitor)
- Peripherals (CPU, Memory, Storage, and customize cables, etc...)
- High brightness and Optical Bonding solutions
- Touch Solutions (Resistive touch, PCAP touch, IR touch, etc...)
- Power Solutions

One-Stop-Shop

Products & Applications

- Factory Automation
- Equipment Manufacturer
- Transportation
- Military
- Medical
- Digital Signage
- POS system

Embedded Board Solutions

- Mini-ITX
- 3.5" SBC
- 2.5" SBC
- ATX
- PICMG 1.0/1.3

Embedded System Solutions

- Customized design services
- Certification design services (Medical, Transportation, Military)

Industrial Panel PC/Monitor

- Full size customized services from 7" to 55"
- Open frame PPC/Monitor design
- IP68/IP69K Stainless Steel PPC design
- Outdoor high brightness, optical bonding solution provided
- Touch solution provided (Resistive, PCAP touch)

Strong Integration Capability

- Panel PC integrated with 1D/2D image scanner
- POS application integrated with MSR, VFD (Vacuum Fluorscent Displays)
- IP69K Stainless Steel Panel PC integrated with RFID
- IP69K Stainless Steel Panel PC integrated with RFID and E-Paper

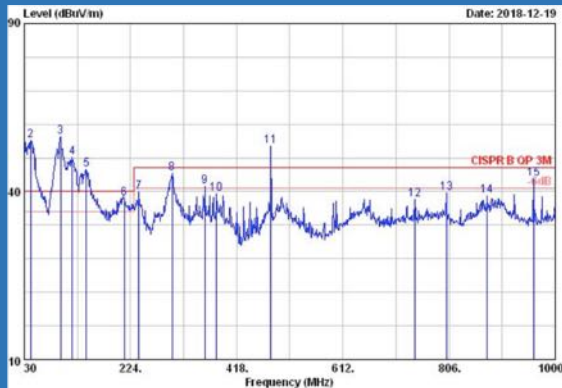

Successful Stories

- Forest Park equipped with our 22" Stainless Steel Panel PC
- 42" Stainless Steel Panel PC equipped for a national park
- USA Government Airplane traffic control system equipped with our 19" Panel PC
- Medical Equipment equipped with our 21.5" Panel PC

Quality Insurance

- EMI/EMC Test
- Burn-in Test
- ISO QM System
- RoHs Compliance
- CE/FCC Certifications

New Product Information:

- Whole series Android/X86 Panel PC from 7" to 21.5"
- Ultra Slim Aluminum front bezel
- Ultra slim design
- Ultra Wide Touchable Monitor/Panel PC
- Can be any size to be fitted into your chassis
- Can be high brightness for outdoor application

2019 Computex

- We attend Computex in Taipei every year.
- Welcome to See our booth and new products!!

Thank You
